as possible the details of the total cost of each course of study. This latter statement should in every case be prepared in consultation with the principal of the college or institution at which the student is entered.

The course approved must not be changed without the sanction of the Secretary of State.

(5) Every scholar must give a written undertaking that he will devote himself exclusively, during the term of his scholarship, to the study of the subject for which his scholarship was granted, and that he will return to India as his headquarters, and there continue to devote himself to the industry which he has studied. Any scholar who neglects his studies, or tries to work for any other profession concurrently, will render himself liable to forfeiture of his scholarship.

(6) Every scholar will be required to keep a concise daily diary, to be certified by the authority under whom he is working, and to be submitted at the end of each term through that authority to the Educational Adviser and to the Secretary of State for transmission to India. He must also submit, in the same way, from time to time, full notes of the work on which he is employed.

(7) Scholars will be expected to continue their studies during the summer vacations of the institutions where they are working, with the exception of three weeks in each year. Vacation study should, where possible, take the form of practical work.

(8) Applications giving a detailed programme of the vacation work the scholar proposes to do, accompanied with a complete estimate of any extra expenses for food and travelling, must be sent through the principal of the institution or the principal under whom the scholar is working, before the end of the month of April. Scholars are not entitled to any subsistence allowance in addition to the scholarship allowance during the time spent on vacation work, but a scholar who remains overseas in such the Christmas may, if the Secretary of State for India is content therewith that the circumstances render it desirable, be granted a subsistence allowance calculated at such rate as the Secretary of State may decide.

(9) Every scholar must, at the end of each term of residence at a University or college, submit to the Educational Adviser a certificate from the proper University or college authority, showing that his residence, conduct, and progress in study have been satisfactory during the term.

(10) Every scholar must at all times obey such instructions as he may receive from the Secretary of State, either directly or through the Educational Adviser.

(11) Subject to a due compliance with the above conditions, the allowance, at the rate of £150 a year for two years, or three years if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England. The first payment will be £37-10s. Three months after the date of reporting arrived the amount to the ensuing official quarter day will be paid. Subsequent payments will be made in advance, on or after each official quarter day. The allowance will be reduced by the amount of any other sum which may become payable to him out of the revenues of India in respect of residence at a University, college, or institution during the same period or any part of it, but not in respect of University or college fees, the cost of which will be separately defrayed by the Secretary of State. Fees for private tuition are not defrayed by the Secretary of State unless previously sanctioned by him.

The necessary travelling expenses of scholars, by second class, or by third class if no second class be available, will also be separately defrayed by the Secretary of State; these should be claimed on forms obtainable from the Educational Adviser.

Duplicates and other charges which are part of the regular fee exacted by the authorities of the educational establishment in which a scholar is working will be paid by the Secretary of State; but charges for books, instruments, hotel bills and medical attendance must be paid by the scholar himself (any refund of a deposit must be repaid to the Secretary of State).

(12) No claim can be admitted for the payment or refund of any expenditure unless the scholar has obtained the previous sanction of the Secretary of State for India in respect of expenditure. (This does not apply to necessary travelling expenses referred to above.)

(13) Every scholar will forfeit his scholarship when, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required term of residence in England according to the terms and conditions approved by the Secretary of State under rule 4, or who is guilty of misconduct or disobedience of the instructions of the Secretary of State. If a scholarship be forfeited, or if it be resigned before completion of its term, or if a scholar on completion of the term of his scholarship declares to return to India in accordance with the undertaking mentioned in rule 5, the scholar will lose his claim to a free return passage to India, and will further become liable to refund the cost of his free passage to England.

(14) At the expiration of his scholarship a scholar is privileged by the India Office with a free second class passage to India. The scholar is not entitled to make his own passage arrangements and to claim an allowance in lieu from the India Office without the special sanction of the Secretary of State. All communications on this subject are to be made to the Educational Adviser.

(15) Should the Secretary of State be advised that the state of a scholar's health is such as to render his return to India desirable, the scholarship may be terminated forthwith and a free return passage granted to the scholar.
